

Scientific Program

| Thursday December 5, 2019 | |
|---------------------------|--|
| | HALL "N. SKALKOTAS» |
| 7:15- 14.00 | Registrations |
| 8:15 -12:30 | Educational Session -Part A Chairs: E. Kassi, M. Peppas Local Delegates |
| 8:15- 8:25 | Introduction |
| 8:25- 8:50 | Imaging of the parasellar region S. Lahanis |
| 8:50-9:15 | Surgical management of Craniopharyngiomas N. Georgakoulias |
| 9:15- 9:40 | Neoplastic and systemic lesions of the parasellar region G. Kaltsas |
| 9:40- 10:05 | Molecular developments P. Xekouki |
| 10:05-10:30 | Management of residual sellar and parasellar lesions P. Nomikos |
| 10:30-10:45 | Coffee Break |
| | Educational Session -Part B Chairs: S. Tigas, A. Chrisoulidou Local Delegates |
| 10:45-11:10 | Systemic treatments A. Koumariannou |
| 11:10- 11:35 | Hormonal replacements M. Tzaneta |
| 11:35- 12:00 | Late-effects C. Kanaka- Gantenbein |
| 12:00- 12:25 | Multidisciplinary-approach (3 Cases) N. Karavitaki |

Scientific Program

Thursday December 5, 2019

| | HALL "N. SKALKOTAS" |
|-------------|---|
| 14:00-14:30 | ENEA Opening Ceremony Chairs: G. Kaltsas- T. Brue |
| 14:30-15:30 | Plenary Lectures: Chairs: G. Stalla, I. Shimon 1.The landscape of parasellar lesions A. Grossman 2.WHO classification of parasellar tumors O. Casar-Borota |
| 15:30-17:00 | Symposium 1: Craniopharyngiomas and other cystic parasellar lesions Chairs: M. Buchfelder, C. Andoniadou 1. Diagnosis and management of craniopharyngiomas in the era of genomics and targeted therapy H. Muller 2. Biological behavior of craniopharyngiomas: what is new? J- P. Martinez- Barbera 3. Natural history and management of Rathke's Cleft and other cystic lesions G. Tsermoulas |
| 17:00-17:30 | Coffee Break and e-Posters Viewing Chairs: M. Theodoropoulou, K. Alexandraki |
| 17:30-19:00 | Symposium 2: Neoplasms of the parasellar region Chairs: A. Grossman, P. Nomikos 1. Chordomas and chondrosarcomas M. Buchfelder 2. Meningiomas and chordomas T. Graillon 3. Metastatic and rare neoplasms of the parasellar region I. Shimon |
| 19:00-19:45 | Rolf Gaillard Prize Lecture Chair: T. Brue Patient-related outcome in neuroendocrine diseases S. Webb |
| 19:45 | Get together Cocktail |

13:00-14:00

ENEA Young Investigator Meeting 1 - Oral Presentations and Awards

Chairs: L. G. Pérez-Rivas, P. Khandaeva

OP1. Identification of new diagnostic and prognostic biomarkers in craniopharyngiomas associated with the dysregulation of splicing machinery

Antonio C Fuentes-Fayos, Teresa Sánchez-Medianero, David A. Cano, Juan M. Jimenez-Vacas, Antonio J. Martínez-Ortega, Álvaro Toledano-Delgado, Elena Dios, Eva Venegas-Moreno, Juan Pedro Martínez-Barbera, Justo P. Castaño, Alfonso Soto-Moreno, Rosa M. Ortega Salas, Raúl M. Luque

OP2. Distinct cell adhesion profile in silent corticotroph adenoma may explain its aggressive behaviour

Nicoleta Cristina Olarescu, Alexander K. Eieland, Kjersti R. Normann, PARvind Y.M. Sundaram, Jens Bollerslev

OP3. Surgical management, clinical outcome and health related quality of life in adult craniopharyngeoma patients

Kristin Lucia, Peter Vajkoczy, Christian Strassburg, Julia Onken

OP4. Prognostic factors of recurrence/progression of PitNETs: a monocentric retrospective cohort of 500 patients at 8 years post-operative

Sabrina Chiloiri, Antonella Giampietro, Chiara Bima, Felicia Visconti, Laura Rossi, Liverana Lauretti, Carmelo Anile, Guido Rindi, Alfredo Pontecorvi, Laura De Marinis, Antonio Bianchi

OP5. Alterations of pituitary MRI intensity in obesity: the Chiasm study

Emilia Sbardella, Giulia Puliani, Riccardo Pofi, Alessia Cozzolino, Carlotta Pozza, Daniele Gianfrilli, Elisa Giannetta, Andrea Lenzi, Andrea M. Isidori

| | |
|--------------|---|
| 08:30-09:30 | Plenary Lectures Chairs: St. Tsagarakis, M. Zatelli 1. Familial syndromes associated with parasellar neoplasms M. Korbonits 2. Bridging pediatric and adult patients G. Chrousos |
| 09:30-11.00 | Symposium 3: Treatment challenges of parasellar lesions Chairs: M. Pfeifer, L. Vilar 1. New developments in surgical approaches to parasellar lesions P. Mortini 2. Current and evolving radiotherapy modalities for parasellar lesions G. Minniti 3. Safety of GH replacement in patients with parasellar lesions C. Higham |
| 11.00-11.30 | Coffee break and e-Posters Viewing Chairs: D. Kolomodi, A. Bargiota |
| 11.30-13.30 | Symposium 4: Late effects of treatment Chairs: D. Carvalho, D. Goulis 1. Endocrine sequelae V. Popovic 2. Pursuing fertility in the presence of hormonal deficiencies A. Isidori 3. Hypothalamic damage E. M. Erfuth 4. Non-endocrine sequelae and second brain tumors F. Castinetti |
| 13.30- 14.30 | Lunch and e-Posters Viewing Chairs: E. Kassi, K. Kotsa |
| 14.15- 14.45 | Industry Sponsored Lecture |
| 14.45-16.15 | Meet the expert sessions 1. Managing Diabetes Insipidus M. Christ-Crain 2. Imaging of the parasellar region JF. Bonneville 3. Metabolic abnormalities B. Gatta – Cherifi |
| 16:15-17:45 | Symposium 5: Non-neoplastic diseases in parasellar region Chairs: V. Popovic, P. Petrossians 1. Autoimmune and IgG4 hypophysitis J. Honegger 2. Drug induced hypophysitis A. Angelousi 3. Systemic and infective diseases P. Makras |
| 17.45-18:00 | Coffee break e-Posters Viewing Chairs M. Tzanela – P. Xekouki |
| 18.00-19:30 | Industry Sponsored Symposium |
| 19:30-20:45 | Multidisciplinary approach with case discussion Moderators: G. Stalla, N. Karavitaki Commentators : P. Nomikos, M. Losa, JF. Bonneville Case presentation 1: A. Markou Case presentation 2: D. Vassiliadi Case presentation 3: D. Macut |

Friday December 6, 2019

HALL "MC 3.2"

18.00-19:00

ENEA Young Investigator Meeting 2

Chairs: T. Cuny, C. Olarescu

Practical approach of parasellar lesions in MRI for clinicians **F. Bonneville**

Surgical approaches in parasellar lesions« **E. Cardenas**

Impact and outcomes of stereotactic radiosurgery in parasellar lesions **L. Albano**

OMICs approaches in the study of parasellar lesions **J. Apps**

Saturday December 7, 2019

| | HALL "N. SKALKOTAS" |
|-------------|---|
| 08:30-10.00 | Symposium 6: Further advances Chairs: JF Bonneville, R. Luque 1. Morphological imaging S. Nagi 2. Functional imaging S. Chatzioannou 3. Novel signaling mechanisms involved in pathogenesis of parasellar lesions C. Andoniadou |
| 10.00-11.30 | Meet the expert 1. How far the pituitary surgeon should or could go into the cavernous sinus? E. Jouanneau 2. Pituitary stalk enlargement: diagnostic approach P. Chanson |
| 11.30-12.00 | Coffee Break and e-Posters Viewing Chairs: G. Raverot, N. Biermasz |
| 12.00-12.45 | Debate Chairs: N. Karavitaki, E. Jouanneau Optimal management of Craniopharyngiomas: surgery alone or with adjuvant radiotherapy? M. Losa , A. Pereira |
| 12.45-14.00 | Special issues Chairs: S. Nagi, A. Isidori 1. Pitfalls in histopathological diagnosis C. Villa 2. Pitfalls in radiological diagnosis S. Chavda 3. Bariatric surgery for hypothalamic obesity A. Kokkinos |
| 14:00-14:15 | End of the Meeting |

Industry Sponsored Sessions

Friday December 6, 2019

HALL "N. SKALKOTAS"

14.15- 14.45

Industry Sponsored Lecture

Chair: M. Tzanela

The expanded role of octreotide in pituitary adenomas

G. Piaditis

Organized by

18.00-19:30

Industry Sponsored Symposium

18:00-18:05

Chairperson's welcome and introduction

- Brief welcome

- Introduction to NETs and acromegaly

G. Kaltsas

18:05-18:30

Understanding the impact of endocrine tumours on patient quality of life

G. Kaltsas

18:30-18:55

Seeing through their eyes: The patient perspective vs the clinical perspective

Ph. Chanson

18:55-19:20

An individualised approach: What influences treatment decisions?

A. Grossman (TBC)

19:20-19:30

Moving Forward Together

-Q&A/Panel discussion

- Summarise the take home messages from the symposium

G. Kaltsas
